### COMMUNICATION: SET ALERTS IN PLAYMETRICS

As a parent, PlayMetrics is your best resource and if you set it up to fit your communication style, the app can be a lifesaver! The PlayMetrics application is designed to provide the type of communication you want to receive. Personally, I prefer a text message, therefore I get text alerts when messages are sent to me in PlayMetrics. Check out this article provided

by PlayMetrics, it will help you set up the application to fit your needs (you can also click the image to access the article).

### SETUP/TAKEDOWN & PARKING

Please remember, teams that arrive for first games of the day are responsible for helping setup the goals and get the fields prepped for the day. Teams with last games are to help close down the fields so that we can leave the park cleaned up for the rest of the community's use.

### IMPORTANT UPDATES

#### FIELD MAP

#### LOST & FOUND

We will maintain a lost and found all season. If you forget something, you can reach out to your coach first to see if someone has picked up your lost item. If the coach has not found the item, they can send me an email to inquire. We will have the lost and found out at field 17.

Beach FC – 40 years of nonprofit soccer in Hampton Roads

# WEEKLY COACHES' CORNER

Check out these fun games!  
Click picture to see the video!

Click the clipboard to reveal the game. Please remember these games are loaded into PlayMetrics.

## Thank You for being Positive

Thank you, Parents, Players, and Coaches for remaining positive out at the fields. As you may know, we are a low-level developmental league where the referees, coaches, players, and parents are all learning the game, focusing on the fun aspects! Please continue to be understanding and patient as we all learn about soccer together on the game fields.

## HAVE PICTURES TO SHARE???

We are building a photo library of our 2022 Fall Recreation Soccer season. If you wish to contribute, please add your pictures to social media and tag us at **#BeachFCProud**
