### POSITIVE SIDELINE CONDUCT

On a regular basis, I find myself watching a professional sports match and hearing the crowd turn on the officials or the opposing team. I have heard songs, statements, screams, and cries from fans who disagree or feel like they need to stand up for the team and yell, whether it be an expletive or calling someone a name. Competition brings out many feelings for those on the sideline, but we all must remember that YOUTH SPORTS is all about the children. Please remember that we are out there for the players and that the players are watching and in need of our positive support. So whether you're an outward or quiet supporter, please remember to stay positive because your support means everything ([watch the video](#)).

We do only positive.

Your support means everything.

### Reminders for all:

1. Referees, coaches, and players are on the field trying to do their best! (no one came to the field to perform badly).
2. Just being supportive is sometimes the difference between a player with confidence and a player with none.
3. Mistakes happen, it isn't about the mistake but about how you react to it afterwards. Encourage your athlete to brush off the mistake and get back to the game.
4. There are a million other memories that children will have and an outcome of a game is not always one of them.

Beach FC – 40 years of nonprofit soccer in Hampton Roads
